

Telesis Bio's Self-Attestation to Biosecurity and Compliance with Nucleic Acid Synthesis Screening Framework

Dear Valued Customers,

Telesis Bio, Inc., a nucleic acid synthesis provider, attests that it is compliant with and adheres to all requirements in the U.S. Office of Science and Technology Policy (OSTP) Framework for Nucleic Acid Synthesis Screening and California Assembly Bill 1864 (California Health and Safety Code Section 24201).

Telesis Bio implements the following biosecurity and information security practices, as specified in the Framework:

- **Screening purchase orders** for synthetic nucleic acids to identify sequences of concern (SOCs).
- **Screening customers** submitting purchase orders of synthetic nucleic acids with SOC to verify legitimacy.
- **Reporting potentially illegitimate purchase orders** of synthetic nucleic acids involving SOC to relevant authorities.
- **Retaining records** relating to the purchase of synthetic nucleic acids for a minimum of 3 years.
- **Taking steps to ensure cybersecurity** and information security.

Telesis Bio is committed to satisfying the requirements of the OSTP Framework and California law. Telesis Bio agrees to promptly update this statement should there be any changes to our adherence status. If you have any questions, please reach out to us at help@telesisbio.com.

Best regards,

Eric Esser
